About me

Hello, I am **Daniel Teixeira**, 26-years old , Full Stack developer, I'm very tech-savvy and a React enthusiast.

I started studying React in the first-half of 2019, and have been working and studying it together with NodeJS and React Native.

I like to keep myself updated with new technologies and methodologies in this spectrum.

I am **proficient in spoken and written English**.

Professional Experience

Full Stack Developer

Full Time

 Snapboard Inc.  Remote

 Oct, 2019 - Aug, 2020

Product design, implementing integrations, creating components, e2e testing.
Typescript, React, NodeJS, Cypress.io, Passport

React Developer

Freelance

 Freelancing  Remote

 Jun, 2019 - Oct, 2019

Comissioned apps for local businesses. **React, Electron**

Education

React Tech Stack - Bootcamp

 Aug, 2019 - Oct, 2019  Rocketseat

Imersive course on the React, Node and React Native ecosystem. Many practical exercises, developed entire apps with databases, back-end, front-end and mobile.

The course also included:

- DevOps with docker, mongodb, postgres;
- Advanced styling using styled-components library;
- State management with Redux and Redux-Saga;
- Tests with Jest.

Javascript and React Courses

 Apr, 2019 - May, 2019  codewithmosh.com

Introductory course to Javascript ES6, and React. During the course I developed an entire Video Rental app with a fake API.

English Course

 Jan, 2007 - Dec, 2011  CILBSB

A 5-years long course with both written and oral tests every semester. The course aims at teaching students everything they might need if they ever decide to study/work in a English-speaking country.
